Why Anlin Designer Black

Durability

Our capstock is manufactured with state-of-the-art coextrusion technology that ensures 100% molecular bonding between the black acrylic and the vinyl substrate. The result is a more durable, scratch-resistant, and lightfast finish than other options.

Energy Savings

Anlin is an industry leader in manufacturing energy efficient windows and provides exceptional U-Factor and SHGC performance ratings homeowners can count on.

Premium Features Available

We offer a range of premium features, including state-of-the-art security glass packages for enhanced home protection, antimicrobial mesh screens for a healthier living environment, noise insulation options, and weather-tight seals.

Service and Warranty

Anlin products are backed by an industry leading warranty & 5 star rated customer service.
